The image is a screenshot of the United States Census Bureau website. At the top left is the "United States Census Bureau" logo. To the right of the logo is a navigation bar with five categories: "Topics" (Population, Economy), "Geography" (Maps, Products), "Library" (Infographics, Publications), "Data" (Tools, Developers), and "Surveys/Programs" (Respond, Survey Data). In the top right corner, there is a search bar with the text "U.S. Department of Commerce" and a "Search" button. Below the navigation bar, a large black text message reads: "Sorry, the page you requested has either been moved or is no longer available on this server." Below this message, another line of text says: "May we suggest these Gateway pages to census data:". At the bottom, there is a bulleted list of three links: "The 2010 Census", "American FactFinder", and "Business Help Site".

"Iran hides behind its assertion of technical compliance w/the nuclear deal, while it brazenly violates the other limits.."

Amb. @NikkiHaley

Outline of Session

- What is PEGI?
- PEGI Three Questions
 - What is electronic government information?
 - What are high risk?
 - What are high priorities?

Who's Here Today?

Lynda Kellam

Data Services and Government Information Librarian, University of North Carolina at Greensboro

Robbie Sittel

Government Information Librarian, University of North Texas

What is PEGI?

Mission

Preservation of Electronic Government Information (PEGI) is a two-year initiative to address national concerns regarding the preservation of electronic government information by cultural memory organizations for long term use by the citizens of the United States.

The focus is at-risk government digital information of long term historical significance which is not being adequately harvested from the Web or by other automated means.

Partner Institutions

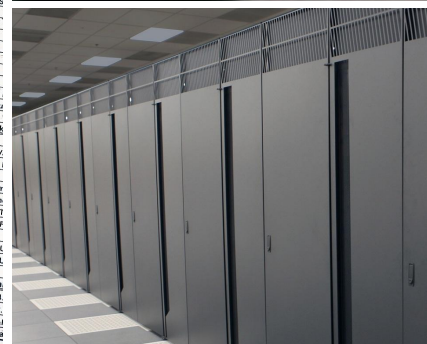

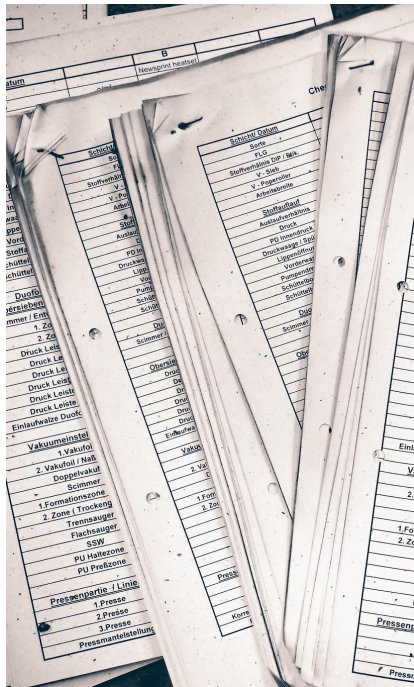

- University of North Texas
- University of North Carolina at Greensboro
- University of California, Santa Barbara
- University of Missouri
- Stanford University
- Yale University
- Center for Research Libraries
- Educopia
- Year two (2018) is made possible in part by the Institute of Museum and Library Services grant #LG-88-17-0129-17.

Other players/partners

Focus on digital information with long-term cultural and historical value

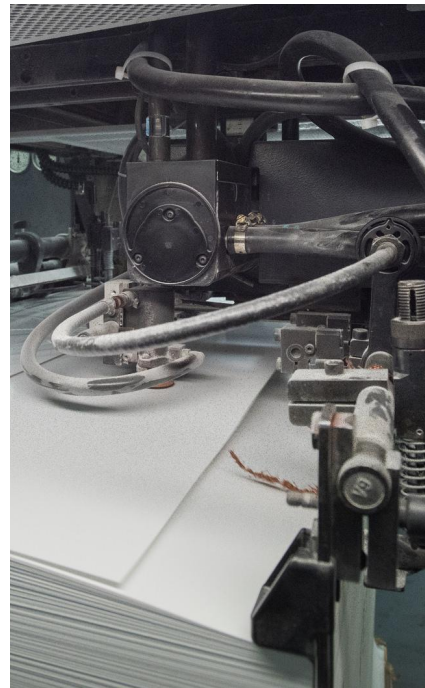

Current efforts underway

- GPO
- LOCKSS USDocs
- NARA
- End of Term Web Archive
- DataRefuge
- Read about [these efforts and more](#)

Project Activities and Outcomes

- Conference Participation / Mini-Forums
- Webinars (<https://www.pegiproject.org/webinars/>)
- Environmental Scan
- Networking / compiling contacts across disciplines
- National Forum in December 2018
- White paper

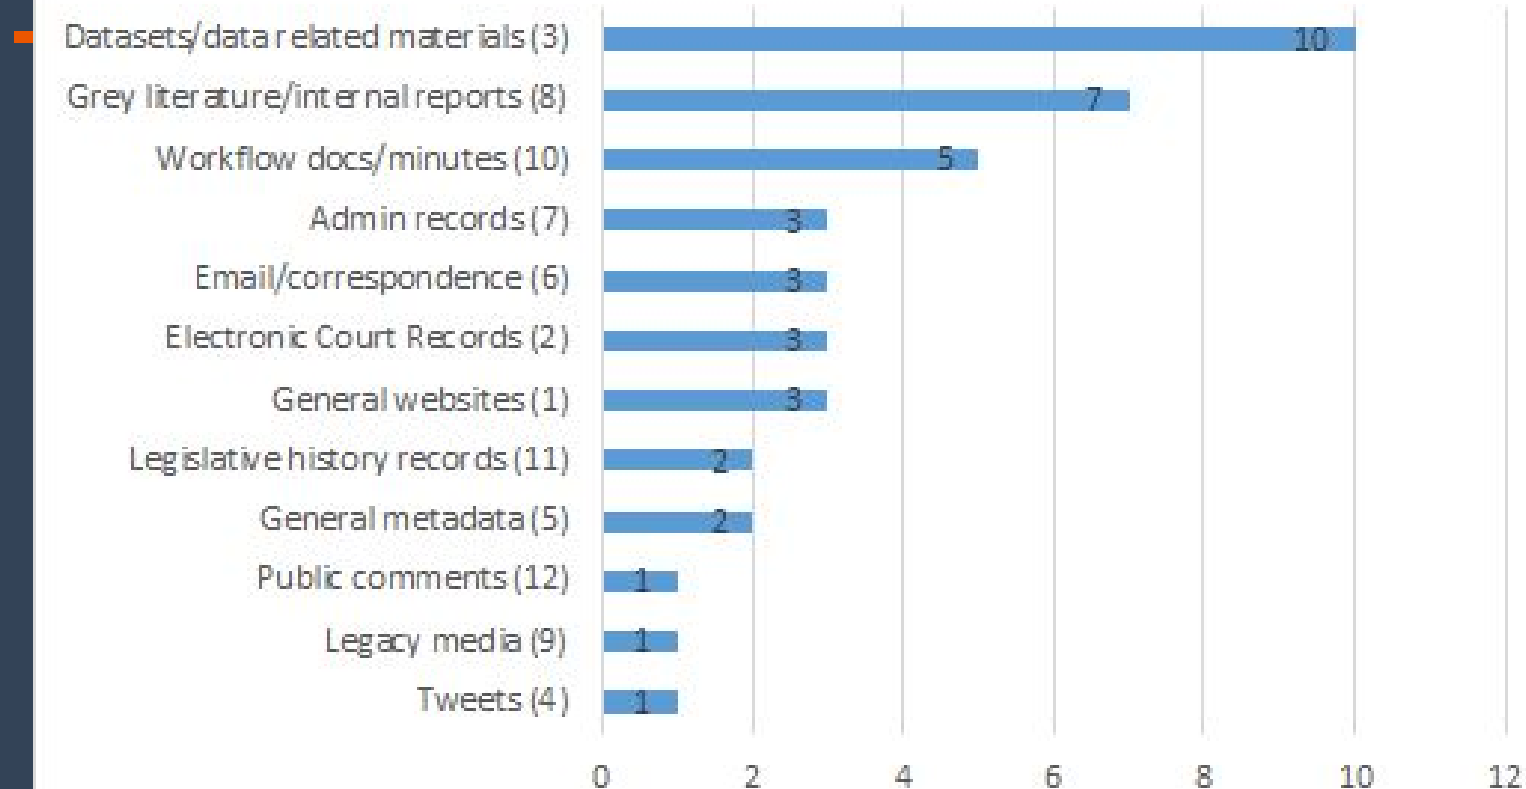

PEGI Three Questions : Question 1

Are there categories of electronic government information (i.e. digitized records, databases, other digital information types) that you think have long-term value for research purposes?

Question 1 - Responses

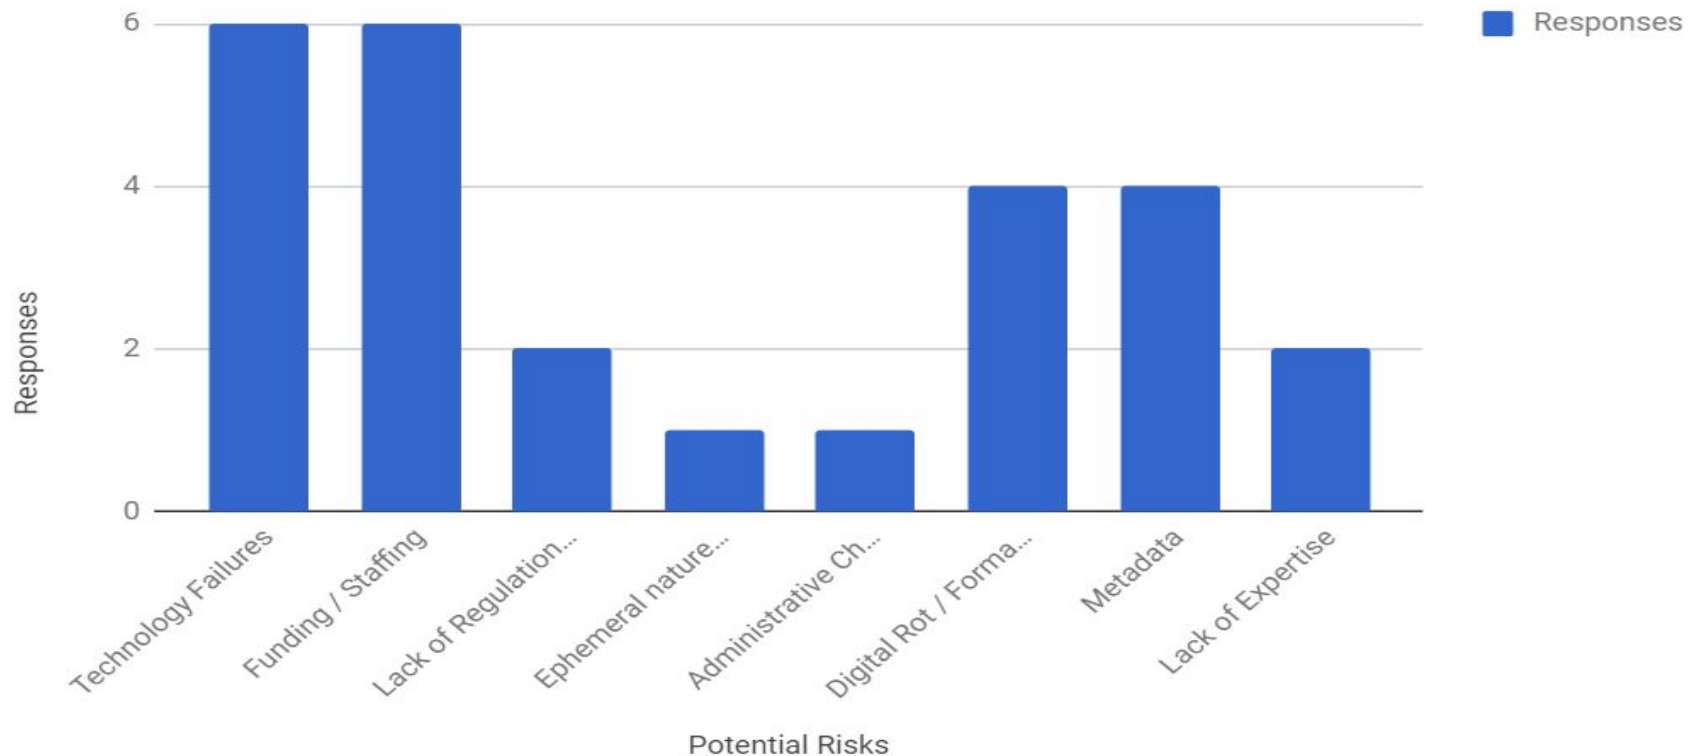

PEGI Three Questions : Question 2

If you identified any categories of electronic government information above, do you think that there are any potential risks that might threaten the long-term survival of this information?

Potential Risks

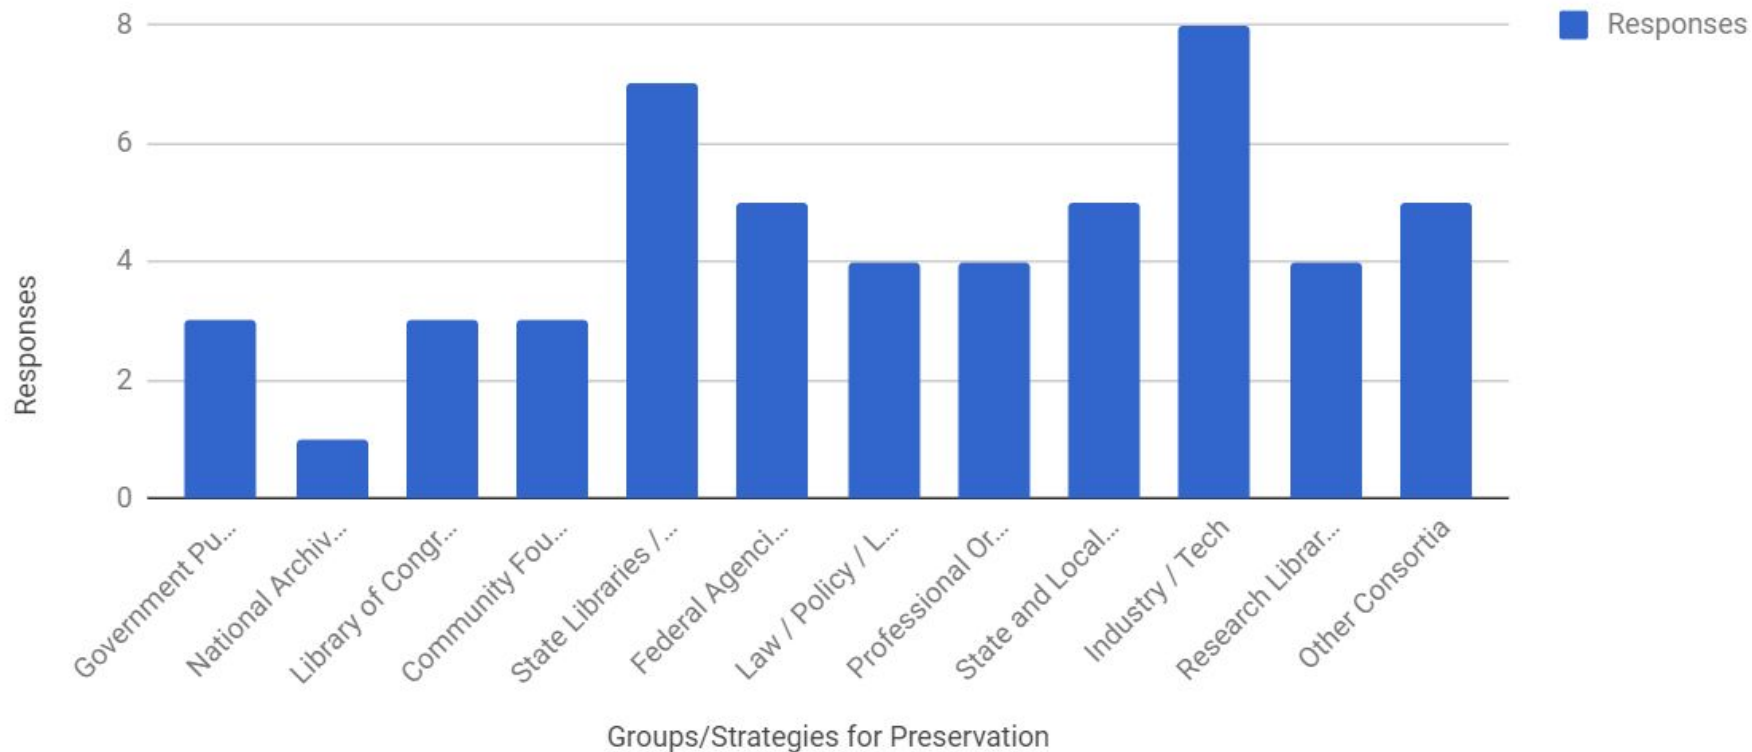

PEGI Three Questions : Question 3

Do you think that there are any useful strategies that could lead to better coordination of efforts by academic or public organizations for purposes of digital collection, preservation, and access? Do you see any logical priorities, opportunities, or barriers to such collaborative actions?

Groups/Strategies for Preservation

Thank you.
